LEGAL NURSE CONSULTING EXPERIENCE

Emery Legal Nurse Consulting, LLC

April 2026 – Present

Owner | Legal Nurse Consultant | Nursing Expert Witness

- Review complex medical records and analyze clinical documentation for legally significant events, documentation concerns, and continuity-of-care issues.
- Prepare medical chronologies, timelines, and concise case summaries for attorney review.
- Evaluate nursing care and documentation within applicable areas of clinical expertise.

CLINICAL EXPERIENCE

Registered Nurse

November 2025 – Present

Sharon Regional Health System — Sharon, PA

Cardiac Catheterization Laboratory

- Evaluate patient histories, clinical documentation, and procedural indications to identify clinical risks and support appropriate care planning.
- Identify and document complications and key clinical events.
- Conduct comprehensive medical record reviews to assess patient readiness, procedural appropriateness, and continuity of care.
- Ensure accurate and complete clinical documentation while collaborating with physicians and interdisciplinary teams to coordinate patient care and procedural planning.

Registered Nurse

April 2025 – November 2025

Bon Secours Mercy Health — Warren, OH

Cardiac Catheterization Laboratory / Interventional Radiology

- Analyzed and documented procedural outcomes and patient responses in Epic EMR, ensuring accurate and detailed medical records.
- Ensured compliance with regulatory and hospital standards during invasive procedures.
- Provided patient education and care coordination regarding treatment plans and follow-up care.

Charge Nurse

July 2020 – March 2025

Insight Hospital and Medical Center — Warren, OH

Cardiac Catheterization Laboratory

- Performed monthly audits of clinical documentation and moderate sedation records to support regulatory compliance and quality improvement.
- Evaluated clinical documentation for accuracy, completeness, and adherence to organizational and regulatory standards.
- Oversaw compliance with unit standards, policies, and confidentiality requirements.
- Coordinated scheduling, staff coverage, and inventory processes.

Registered Nurse

July 2019 – June 2020

Bon Secours Mercy Health — Youngstown, OH

Emergency Department — Level I Trauma Center

- Documented assessments, interventions, and patient responses in Epic EMR.
- Applied critical thinking and triage skills to prioritize care in a high-volume setting.
- Collaborated with interdisciplinary teams to coordinate timely care delivery.

Emergency Medical Technician

August 2012 – September 2019

Lane LifeTrans Paramedics — Youngstown, OH

Emergency Medical Services / Mobile Intensive Care

- Responded to emergency calls and provided immediate care to critically ill and injured patients; assisted paramedics with advanced life support interventions and patient transport.
- Assigned for three years to St. Elizabeth Youngstown Hospital's Mobile Intensive Care Unit, assisting with ventilators, infusion pumps, arterial lines, and cardiac monitoring during critical-care transport.
- Served as a Tactical Emergency Medical Specialist with the Mahoning Valley Crisis Response Team for scheduled operations, emergency responses, and training exercises.
